

Videoplugger Ltd

Front end PHP programmer with CSS experience

Job Description: Videoplugger is a successful, award nominated TV news agency and audiovisual media content intermediary with 10+ years of activity, based in London, UK. We are about to revamp our video platform. We are looking for an enthusiastic and excellent graduate or a student that will join us for a PAID internship during 4-6 months, working independently on the project. We need a programmer with good front end development skills, CSS experience and knowledge of AJAX.

Candidate Requirements:

- Graduates or student of computer sciences/programming/ technology
- Project time 3-4 months, Programming Languages Required: CSS PHP
- Other Skills: AJAX and MySQL
- At least basic knowledge of English

Please address the CV's to ebba@videoplugger.com
