Yasar University's Halls of Residence

YASAR
ÜNİVERSİTESİ

Yasar University's Halls of Residence

Yasar University's new Halls of Residence will be opening in time for the 2010-2011 academic year. They will provide accommodation for 400 students, in two 8-storey buildings, situated in the vicinity of the main university campus.

The halls are in line with the quality ethics of the university and conform to local building regulations. They offer students a safe, peaceful and comfortable environment, as well as providing entertainment options, during their study years. The sizes of the rooms vary according to the number of beds; double rooms are 17 square metres and triple rooms are 21 square metres (excluding the bathroom area).

FACILITIES

All rooms have en suite bathrooms, and are furnished to meet the student's needs:- a bed, desk and study unit, wardrobe and shoe cupboard, book shelves, as well as a mini fridge, telephone and wireless internet access.

Hot water is available 24 hours a day. There is also a central heating, as well as an air conditioning system.

Other facilities include a refectory, a café, a market shop, a laundry, an ATM and a sick bay. There are also study rooms, a TV corner, as well as areas for playing table tennis, billiards, and keeping fit.

The Halls have their own professional cleaning staff, and a cleaning service is provided in line with health and safety guidelines (on a daily basis for shared communal areas and on a weekly basis for the rooms).

There is also a technical support team, responsible for any electric and electronic repairs, as well as any plumbing problems.

LOCATION

The Halls of Residence are easily accessible. They are approximately 300 metres from Yasar University Selçuk Yaşar Campus, 500 metres from Ege University Hospital, 300 metres from Şifa Hospital, 500 metres from the large shopping centre, Forum Bornova, (which

includes Ikea), as well as being 2km away from the city centre and 20km from away from the airport.

People with Special Needs are welcome at the Halls of Residence

The architecture of the buildings is such that they provide easy wheelchair access. Priority has also been given to the design of the interior, for example the toilet and shower facilities, to make life easy for people with special needs.

COST OF ACCOMMODATION

The cost of the Halls of Residence is determined in line with the general statutes and relevant legislation of the university. An initial deposit is required as down payment, to cover the cost of any damage to the facilities made by students during their stay. This deposit (or the proportion thereof) will be refundable at the end of the student's stay. The amount however will be calculated once the student has moved his belongings out of the Hall of Residence, returned the room and contents in a satisfactory state to the university, and it is seen that the student has no outstanding payments due or disciplinary action pending.

An initial deposit is payable of 155 Euros / 200 USD

The cost of each person staying in a double room is 1650 Euros / 2130 USD (VAT included).

The cost of accommodation (including deposit) should be transferred to the bank account below before the announced deadlines. Please do not forget to include your name&surname and the notification as "accommodation cost" in the bank's payment document.
